

SIMS Support SLA

The SIMS Support team are committed to providing a high quality, personal and professional service to fully support SIMS throughout schools and academies. The team will work closely with schools to support and develop the use of SIMS and assist in tailoring the system to meet your individual needs.

This SLA is suitable for all schools and academies and will provide helpdesk, on-site support, training and consultancy relating to the use of SIMS and the information it contains. It aims to provide schools with the appropriate tools to effectively discharge a range of management, administrative and curriculum functions and to enhance teaching and learning.
